

Verrone, 05 June 2020

To whom it may concern,

Adhering to the needful drive for an environmental and socially responsible processing, we structured our purchasing and processing so that we do not intentionally use any substance contained in:

- SVHC (Substances of Very High Concern) as per the regulation (EG) Nr. 1907/2006 REACH
- CMR (Carcinogenic, Mutagenic or toxic for Reproduction) substances of category 1 and 2
- Substances listed in the California Proposition 65
- ZDHC MRL (Manufacturing Restricted Substances List)

Furthermore we confirm that our process is GOTS CERTIFIED (Global Organic Textile Standard). Certificate is published on our website and available on request.
